

Serial No. 10/642,810

REMARKS

Applicant thanks the Examiner for identifying the informalities in the Office Action of July 6, 2006. Applicant has amended the specification, without adding new matter, to address those informalities. Applicant has also amended the drawings, without adding new matter. Applicant submitted formal drawings for FIG. 1 and FIG. 1A. In the formal drawings, Applicant eliminated reference number 41, made lead lines 48, 50, and 62 point to the items identified in the specification, and added reference number 61 with its lead line. Applicant has amended claim 1.

Examiner rejected claim 1 under § 112. Sidewall 65 can be a curved extension of the material section 42. It forms a line contact (an example of the first point of contact of claim 1) with the interior of the curved sidewall, preferably contacting a rib of the sidewall.

With the above amendments and remarks, this application is considered ready for allowance and Applicant earnestly solicits an early notice of same. Should the Examiner be of the opinion that a telephone conference would expedite prosecution of the subject application, he is respectfully requested to call the undersigned at the below-listed number.

Respectfully submitted,

WELSH & KATZ, LTD.
